Emergency Recreation Program

REFS:

on 20 NOV 1956

25X1A

1. By this time you undoubtedly have received dispatch [redacted] dated 25 October 1956, in which I indicated that it might be wise if we did not try to establish the long-range operating rules for your club at this time, because of the uncertainties of the local situation and the administrative details of the 61 transfer.

2. In view of the action that you have taken, to automatically make all KUBARK personnel members of the American club, utilization of the emergency funds for payment of utilities is authorized since such use conforms to the intent of the approval. Also, you may plan, and encumber emergency funds accordingly, on utilizing these funds for the payment of the club's rent for the balance of Fiscal Year 1957. However, as indicated in para 2 of [redacted], additionally emphasized by your statement in reference B that the emergency may necessitate opening a commissary, you should avoid as much as possible any expenditures in your present club site for alterations or capital assets that would be lost if it became necessary to move to a larger facility.

25X1A

3. I advise against utilizing the emergency funds for employing indigenous help on a permanent basis. Withdrawal of these funds at a later date could work a hardship on the individuals and on the operation of the Club under non-emergency conditions. Periodic or temporary employment of help such as might be needed to get ready for, or clean up after, an all hands recreational function, would certainly be in keeping with the intended use of the emergency funds and is authorized within the fund limitations. For reasons of economy and security it might be possible for you to meet some of the sporadic recreational requirements by utilizing indigenous personnel that you

already are employing. Obviously this use must be restricted and must be on a when available basis from their primary job.

4. In view of the possible need for implementation of the commissary and other services that transfer of GI might entail, I suggest you consider retaining possession of the Household Effects Warehouse for the time being if there is a short supply of accommodations of this type on the [REDACTED]
